FALL VACCINE CLINIC SPECIALS!!!

It's time to booster your horses immunizations! Fall vaccines generally consist of fewer shots than in the Spring! But if Spring blew by and your horse missed out on his or her vaccines, lets catch up!

WHY HOLD A VACCINE CLINIC?

- Vaccine clinics are a great way to ensure that all the horses on your property or in your surrounding area are properly vaccinated! When a herd/population of horses are well immunized as a whole, the risk to your individual horses GREATLY decreases.
- They save money! We're all holding on to our earnings a little tighter these days—organizing a vaccine clinic is easy and can save everyone a little money.

HOW MANY HORSES ARE NEEDED FOR A VACCINE CLINIC?

- Vaccine clinics consist of 10 or more horses
 - With a vaccine clinic each vaccine is discounted
 - No ranch call fee applies
 - De-worming medication is also discounted at vaccine clinics
